April - June 2021

COVID-19 Vaccine Update

Our best hope for resuming normal activities is effective and widespread vaccine distribution. Sacramento County moved to the Red Tier in March and we hope to make it to the Orange Tier in late April or early May. Recently, the State of California partnered with Blue Shield of California to handle the vaccination distribution between county public health agencies and healthcare partners such as Kaiser and Dignity Health. Each week, the number of vaccines distributed to Sacramento County Public Health (SCPH) and their healthcare partners changes, but SCPH usually receives 13,000 to 18,000 doses.

As of April 15, Sacramento County residents aged 16 and older are eligible for vaccination. At this time, individuals 16 and 17 years old are only eligible for the Pfizer vaccine. Vaccinations are free and available regardless of immigration status or insurance coverage. You can register for an appointment at www.saccounty.net/COVID-19. For those with health insurance, coverage information may be requested as part of the appointment scheduling process. Sacramento Regional Transit is offering free rides to COVID-19 vaccine appointments.

Due to the limited amount of vaccines coming directly to SCPH, appointment availability may be limited, and it may take a while for you to get in to an open appointment slot. Pop-Up Vaccination Clinics and locations are being added as vaccinations become available and the County is working to establish these clinics quickly and equitably to the residents of Sacramento County. The goal is that everyone who is eligible and willing will receive the vaccine as quickly as possible!

If you have questions, please email COVID19vaccine@saccounty.net or call the COVID-19 Hotline at 875-2400.

CGNA's Family Night Out Remains on Hold

The CGNA National Family Night Out continues to be on hold. If we were to have a National Family Night out it would be on Friday July 2, 2021. Currently the California Department of Public Health has specific requirements for all people in California when they are outside of the home. In addition, Sacramento County and the City of Sacramento have mandates and suggested restrictions that have caused the CGNA Board to be reluctant to schedule our National Family Night Out at this time. The current Sacramento County COVID-19 Community Event/Gathering Application prohibits indoor gatherings and allows outdoor gathering as long as event organizers and those attending strictly comply with all the requirements. The requirements include everyone must wear a face covering at all times and ensure social distancing between all staff and attendees. The event must not encourage or lead to mingling and interaction of people from different households, and if food is available there can be no gathering where the food is served, and a common eating area must not be used. In addition, in the event that federal, state, or local conditions or guidance changes subsequently, the organizers may be asked to postpone or cancel the event in the interest of public health and safety.

Our attendance has been averaging about 400 to 500 guests. It may be difficult to comply with the face covering and social distance mandates even in Glenbrook Park. Add to this the that the permit may be pulled at any time dependent on the number of current active COVID-19 cases. All scheduled events are tentative until they are over. As such, the CGNA National Family Night Out continues to be on hold until further notice.

Dave Smith, businessman, radio host, and CGNA neighbor promotes the mean to the end of the COVID – 19 virus. Dave gathered up some art supplies and hand crafted five COVID-19 models and a vaccine syringe to share a message to the community encouraging them to get vaccinated.

SCOE Partners with Safeway for Vaccination Clinic

By David W. Gordon, Sacramento County Superintendent of Schools

We are pleased to share that thanks to a great collaboration with Sacramento County Public Health and Safeway, the Sacramento County Office of Education (SCOE) was able to host a vaccination clinic at our Conference Center during the months of March and April. We operated the clinic Thursdays through Saturdays and were able to serve an average of 300 people each day of operation.

Initially, our clinic focused on serving educators and childcare staff, and eventually served members of the Rancho Cordova community. For the local community, we launched outreach to our neediest individuals to make sure they had an opportunity to get a vaccination. As a result of this partnership, we served between 200 to 300 people per day and more than 1,800 were vaccinated.

We are grateful to Safeway and Sacramento County Public Health for helping us meet this great need in our community. Our clinic – no doubt - helped us with the reopening of schools in our county. It helped give people a sense of safety and more comfort in doing their work, for both for educators and childcare workers.

None of this would have been possible without the help and support of the more than 125 SCOE staff members who

volunteered their time to make sure the clinics ran as smoothly as possible. I am so grateful for and so proud of our employees who are always willing to answer a call for help.

In-person Learning at Rosemont High School!

By Elizabeth Vigil, Principal

After more than a year away, we are beyond excited to finally welcome back students who have chosen in-person learning for the remainder of the year! As you can imagine, preparations for the return are extensive – from re-configuring our classrooms to meet health and safety requirements to designing a one-directional walking pattern throughout the campus. We are busily putting up signage, arrows, and 6-ft distancing markings and setting up several entrances with thermal walk-through scanners for daily health screenings for both students and staff. We're also excited that students will be able to use equipment (musical instruments, woodshop and metal tools) with the appropriate daily disinfecting protocols. We will soon provide freshmen and new students with a "virtual tour" video to familiarize them with a campus that most have never seen!

SCUSD is supporting our teachers by providing comprehensive professional learning around instruction, technology, and health and safety - everything they'll need to make a smooth, safe transition back to campus. The district also purchased a wide range of classroom technology to ensure that teachers will have the tools they need to deliver a quality instructional program to all students.

We're also excited that many of our sports have returned to competition! Although we must limit spectators to a specified number of family members for each athlete, it's thrilling to see our students participating in the activities they love. And, finally, as just one tribute to our 2021 graduating seniors, we will soon distribute lawn signs reflecting our deep appreciation for this amazing class. For persevering through a challenging year like no other, they will forever remain a great source of Wolverine pride!

Thanks for the Recycling!

The Association and Bancroft School Staff thank everyone for flattening their cardboard boxes and for removing all of the non-cardboard packing materials. While the revenue from the dumpster has diminished from when we started the dumpster project, we recognize that recycling is not only about cash returns; It is about helping the environment and making the best of our natural resources. Thanks again for your support.

McClaskey Pre-School and Toddler Programs are Back in Class!

The tables have been removed and each child has their own desk. The children rotate their participation either online or in person. Group interaction is limited to two or three families and outdoor play is fun for all!

For more information call Ms. Paula at 916-247-3335.

Sac State 'CARmencement' Paves Celebratory Road for Graduates in the Pandemic-Changed Era

By Dixie Reid

COVID-19 safety restrictions and concerns have kept Sacramento State from holding a traditional in-person Commencement ceremony in 2020 and 2021 at Golden 1 Center, or even outdoors at Hornet Stadium.

Instead, the University has invited '20 and '21 graduates to participate in a celebratory vehicle parade through campus between 8 a.m.-5 p.m. Friday and Saturday, May 21-22.

"I promised that we would meet at Golden 1 Center, and we cannot," said University President Robert S. Nelsen. "All of us want to be together, and we had hoped the pandemic would be gone by now, but it isn't, so we had to pivot."

As many as 4,600 vehicles – each carrying at least one grad and guests – are expected over the two days of CARmencement. Grads are encouraged to wear their cap and gown and to decorate their vehicle. The event will be live-streamed.

CARmencement will begin at the south end of campus, with vehicles following a set route that passes the Sac State Police station, circles behind Hornet Bookstore and the Ernest E. Tschannen Science Complex, then turns west onto Sinclair Drive. The parade splits to deliver graduates to two Recognition Zones before they exit the campus.

In the zones, each graduate will be recognized individually and receive a Hornet Grad Kit, which includes two official Commencement programs and commemorative items from the University.

Along the way, graduates will be treated to live music and several surprises,

including Commencement speeches and videos, and a crowd of faculty, staff, and University administrators celebrating them from socially distanced "cheer dots" along the way.

Bancroft Students Return

By Mrs. Lorena Carrillo, Bancroft Principal

Bancroft is proud to report that 73% of its students selected to return to in-person learning beginning in April! While the school maintains its full-time Distance Learning (virtual classes at home with their Bancroft teacher), many students are on-campus two days each week (three hours per day), in a classroom with their teacher and peers.

The District and school site worked diligently to make this return as safe as possible. The campus is now closed/fenced to restrict entry to those who have successfully completed a health screening. Signs have been posted in abundance stating protocols that need to be followed to mitigate spread of the COVID virus.

Numerous other safety features include: availability of infrared thermometers, masks, and hand-sanitizer; strategically placed plexiglass separators; monitoring person-to-person distancing; installing air purifiers for enhanced room filtration and outdoor hand-washing stations. To see a full list of what has been done, go to www.SCUSD.edu, click on COVID-19 General Information, then Reopening Dashboard.

We're looking forward to eventually getting everyone back to Bancroft and all our wonderful programs! We appreciate your patience and cooperation while we work together to accomplish that goal.

45 Year Tradition Returns

Welcome Back College-Glen Little League! After a one-year halt to the game, both players and families were thrilled to get back on the fields. The players and the coaches are sporting face coverings and the parents are asked to do the same. Players are expected to wear face coverings in the dugout and they are optional on the field.

The league had to start without the opening day parade with Station 60 and the Sacramento Police escort. Little League in the College Greens and Glenbrook neighborhoods dates back to the early 1970's in the American River Little League. Later, the parents formed the College-Glen Little League. When the Sacramento City Unified School District moved from 3-year junior high schools to 2-year middle schools and suspended most of their after-school sports programs, neighborhood sports programs like little league baseball and BAC soccer expanded within our area. Last year was the first season the league has missed in the 46 years that area youth have been part of an organized baseball league. The College-Glen Little League facility continues to be a special part of the community.

Hello Neighbors!

From the Desk of Councilman Eric Guerra

As the summer approaches quickly, one of our oldest playgrounds has received a makeover!

On March 21st, construction started for renovations and replacement of the Oki Park Playground. The original playground was first installed in 1992, and it was built and fundraised by community residents, with the City's support and donations from local community businesses at the time. The playground has since served as a gathering space for children and families in the neighborhood to share giggles and smiles!

Amongst the 175 park playgrounds overseen by the City of Sacramento, the Oki Park Playground is the oldest existing playground before this new renovation. This is a well-deserved touch-up for a community amenity that has provided an opportunity for generations of children to play.

This new playground has a Dinosaur Exploration theme, and it has a flying Pterodactyl and T-Rex head, play roof, and deck panels that look like salvage material created for an outpost (pretty cool if you ask me!). There are also large as-life dinosaur bones and skulls for discovering, climbing, and balancing on, and dinosaur eggs. There is an exploration vehicle for two, a rocking event for two, and stepping boulders.

With its new look, the new playground will continue to serve as an opportunity for children to have fun, play outdoors, and get active at the same time!

The new playground was funded with Park Development Impact fees, and we are expecting the completion of the project during the last week of April.

As always, should have any questions, comments, or concerns, please contact my office at 916-808-7006. My staff is here to assist you!

City is Preparing Oki Swimming Pool

The Oki Swimming Pool is being prepared for summer use. However, swimming pools, like most of the other park activities, will only be able to open and remain open if the County remains in the COVID safe zone. As of today outdoor activities will still have to comply with the Sacramento County COVID-19 Community Event/Gathering protocol.

Changes at Fire Station 60 By Dale Maddox, Station 60

The last year has been full of changes for many of us. Just about all of our daily routines have been subjected to some type of alteration due to the pandemic. Your fire station has seen some change as well.

In the last year, Station 60 has had a significant change in its crew members. Out of a three shift platoon of 12 members, you have three new captains, two new engineers and three new firefighters. These changes in staffing are resulting from promotions, retirements, and transfers.

Even though they are new to the station, they are all veteran members, coming from different districts and bring years of experience to the College-Glen neighborhood.

Also, there is new apparatus in the station. It is a new, smaller fire engine used for those areas in the neighborhood with limited access. Areas such as the trails that branch off of the parkway along the river. While your Engine 60 will still respond to emergencies, you will also see Engine 660 trailing along behind sometimes. Typically for grass or brush fires.

If you would like to meet your new crews, please come by. Captains Dave Corriea, Eric Chase and me, Dale Maddox, along with the members of Station 60 are at your service.

The Sacramento SPCA is Hosting the 28th Annual Doggy Dash on Saturday, June 5th

By Jessica Behrens – Special Events Coordinator

Lace Up. Leash Up. to join thousands of walkers as we lace up our shoes and leash up our pups (or cats, yes, cats too!) to save more lives. This virtual event allows you to participate in your own way while keeping the community safe. Show us your support by walking in your neighborhood, backyard, or local trail - creativity is encouraged! The first 500 registrations receive a free matching dog bandana! Leading up to June 5th, you can participate in our pet festival online. Enter contests, win prizes, and visit the Virtual Vendor Village. Share your event day photos and videos by using #SSPCADASH2021.

Walk with us to help provide care for our community's animals! Doggy Dash helps the Sacramento SPCA care for more than 5,000 animals annually. Funds raised at this event provide medical care to sick or injured animals, low cost vaccinations and spay/neuter services, behavior training, humane education programs and so much more!

Registration Prices

Individual - \$25.00

Team Registration - \$35.00

*Ages 2 and under are free

For more information visit sspca.org/dash

SMUD's Zero Carbon Plan will Create a More Sustainable Living Environment

By Gregg Fishman, SMUD Ward 3 Director

By removing carbon from our power supply by 2030, SMUD is embarking on the most ambitious clean-energy path of any large utility in the United States.

Sacramento's poor air quality and the growing effects of climate change through drought and wildfires has prompted us to act as quickly as we can. Sacramento sits in one of the dirtiest air basins in the country. Our childhood asthma rates are off the charts. In the American Lung Association's "2020 State of the Air" report, Sacramento was ranked the fifth-most polluted city in the country based on days of unhealthy levels of air pollution in the ozone layer.

SMUD's 2030 Zero Carbon Plan will focus on proven and new clean technologies, new business models and partnerships, the repurposing and retirement of our natural gas plants, and regulatory and financial strategies. At the same time, we're committed to maintaining one of SMUD's greatest strengths - our affordability - by keeping rate increases below the consumer price index.

We recognize that we can't accomplish our goal by going it alone. We need the support of a wide range of players, including our residential and business customers, elected officials, local business groups, community leaders, technology companies, car manufacturers, solar companies, and more.

Please visit smud.org/zerocarbon to read both the executive summary and full plan and learn how customers can stay informed and be heard as we move forward. Together, we're going to create a more a healthier, more sustainable place to live.

Another Year of Drought Conditions

It appears California is going to be faced with another year of drought conditions. According to the City it takes several years to enter a drought, it also typically takes several years to ease out of a drought. The problem is we have yet to exit the last drought and there is every indication that we are about to enter the next drought. The City is asking everyone to acknowledge the limited resource and for everyone to do their part to reduce their water use.

Suggested ways to help save water:

Run the washing machine and dishwasher only when full.

Turn the water off when brushing teeth or shaving.

Only fill the bathtub halfway or better yet, take a short shower.

Water the lawn early in the morning or late in the evening on the days prescribed by your water provider.

Put a layer of mulch around trees and plants to reduce evaporation and keep the soil cool.

Water before 10 am or after 7 pm

Water days in College Greens and Glenbrook:

Addresses ending with and ODD number water on Tuesday and Saturday.

Addresses ending with and EVEN number water on Wednesday and Sunday.

Remember, every little bit helps.

Bank of America Financial Center - Perkins Branch is Closing

Area residents with safe deposit boxes in the Perkins Bank of America located at 8363 Folsom Boulevard in Sacramento have been served written notice of the pending closure of the Perkins Bank of America Branch. If you have a safe deposit box in the Perkins Bank of America Branch you have until May 21, 2021 to clear out your box. If you do not claim/clear the box out, the bank will drill out the lock, box the contents, and hold it in their uninsured storage facility for a period of time. Subsequently, the Bank will "escheat the unclaimed content to the State of California." The Perkins Branch will be closed for all services effective July 25, 2021.

Does Folsom Boulevard have California's Largest Selection of Cannabis. Delivered?

In December 2020, the Folsom Boulevard East Special Planning District (SPD) ordinance established regulations governing development along Folsom Boulevard from 62nd Street to the Union Pacific railroad tracks and from Howe Avenue to Watt Avenue. The goal is to promote a greater mix of land use; maintain and improve the character, quality, and vitality of the area; and ensure compatibility between new nonresidential uses within the area and the surrounding residential uses and schools. Prohibited uses include check-cashing centers, somatic practitioner's establishments, cannabis dispensaries, and some tobacco retailing.

When a banner advertising cannabis delivery recently appeared on an unused property within the Folsom Boulevard East SPD, the CGNA reached out to Councilmember Eric Guerra for assistance. His office swiftly looked into the property and determined that there is no cannabis business using that building.

The banner was promptly removed. Thank you to Councilmember Guerra and his staff for responding so quickly to our neighborhood concern.

Neighborhood Maintenance and Upgrades

The streets of College Greens and Glenbrook are active with infrastructure upgrades. Cables are being pulled in the streets, power lines are being replaced, the cell towers are being upgraded, and area trees trimmed. As a result, some of the streets are being dug up and closed to traffic. Please reduce your speed when in the work areas.

Student Rentals an Issue for Neighbors

Complaints about college student rentals continue to be an issue in the neighborhood. College Greens and Glenbrook are designed to be single family homes. There are some limits on residency though there is no enforcement. With the proximity to Sacramento State, a number of homes have been purchased and are being used as rentals for college students. Some parents will purchase a home for their child in place of renting space or living in a dormitory. The student then rents out the extra rooms for added income. It is not uncommon for the maintenance on these properties to be sub-standard, have excessive number of cars, and hold multiple parties. Neighbors complain but little action is taken unless there is a major issue.

The Association believes it is time for the City to address this neighborhood issue and we are asking our Councilmember to assist these neighbors.

McClaskey Adult Center Classes On Hold Due to COVID-19

Free Friday Morning -Watercolor Mini-Workshop

As in the past Free Friday classes continue provided the outside conditions are safe along the American River. In the past that meant as soon as the water level at the river goes down to a safe level. Unfortunately, today that means when the government and the medical advisors tell us we no longer have to fear the coronavirus. Woody has confirmed that he is committed to resuming his Free Friday Watercolor classes at the American River as soon as it is safe to do so. The time will be the same 9:00 am – 11:00 am. As always, Woody welcomes all levels of students, including observers, beginners, intermediate, and advanced. Woody does ask that an adult accompany students under the age of 18. There is no registration fee: just show up at the right time. Because of the uncertainty of the start time Woody suggests that you check in with him via e-mail check on the re-start date. In the meantime, Woody continues to offer watercolor classes in his home-studio via distant learning. For information you may e-mail Woody at watercolors@woodyhansen.com.

Woody is currently displaying a painting each day outside his home to help us get through the COVID-19 pandemic. As you take your daily, socially responsible walks through the neighborhood and past Thomas Jefferson School, be sure to stop and enjoy Woody's paintings.

Uechi - Ryu Karate

The Uechi Ryu class at the McClaskey Adult Center—Thomas Jefferson Branch suspended classes on March 12, 2020 in response to the current public health crisis. While the class is not holding group sessions, members still have access to training.

Henry Carino, who leads the children's classes, has been holding Zoom classes on Monday, Wednesday and Friday at 6:30 pm. The class is open to both children and adults. For information, email Carino Sensei at hrcarino@yahoo.com.

The class also has access to videos being posted on YouTube. As the current time the videos cover elements of the katas San Chin and Kanshiwa. To access the class videos go to:

<https://youtu.be/2bVOsA2CX7c>

For additional information about the class, contact Robert Van Der Volgen Jr. at vandervolgenjr@yahoo.com, or call him at 801-9735.

Music & Movement for Toddlers & Pre-Schoolers with Lisa Phenix

This class like the others is temporarily on hold and will remain that way until it is safe to resume. When instruction resumes you may want to join this class as a means of stimulating your child's development on every level, promote self-esteem, increase coordination, nurture your child's self-expression, and bring out the song in your child, with Lisa Phenix and her music and movement class. With egg shakers, bells and drums in hand, your child becomes part of the back-up band as we explore nature, gravity, and the seasons.

This is a parent/grandparent participation class scheduled for Thursdays at 9:15 am. The cost is five sessions for \$25. For information and start date e-mail Lisa at lisap@winfirst.com or call 719-6106.

Have a Beehive in Your Yard?

If you find a beehive in your yard please do not disturb it. Instead, call Alex the bee man at 541-0833 and he will come and gather the bees. There is a growing need for bees in the area. Last year the bee population in our residential area appeared to be diminishing. To assist with the problem Alex brought two beehives to support the neighborhood.

Alex answered our call again this year just in time for the citrus blossoms. Alex urges everyone to support the bees and the job that they do in the area. He assured us that the bees should not be a threat to our safety as long as we stay out of their way. Alex will pick-up the hives as soon as the citrus and other fruit trees have finished blossoming.
